

IDA Innovation Vouchers - Getting Started

+ What would an Innovation Voucher be used for?
New product or process development; new business model development, new service delivery model or new service development model and tailored training in innovation management.

+ How does the process start?
Make contact with a Knowledge Provider – list of Knowledge Providers available from IDA Ireland.

Or

Send a knowledge question to IDA for circulation to all the Knowledge Providers. Those with relevant expertise will respond direct to you.

+ How do I apply?
Submit an application form by email to your Project Executive at IDA Ireland or send it to monica.harding@ida.ie

+ Eligible Expenditure
Salary costs for researchers for work undertaken on project; small items of equipment and materials as agreed in advance with the company and; small amounts of travel as required and agreed in advance with the company.

+ Expected Deliverables
These are academic research projects and a finished commercial product should not be expected as a deliverable. Deliverables to be expected are as follows: Reports, drawings, technical specifications, technology roadmaps, rough product or process prototypes or the results of specific analysis.

+ Evaluation Process
Assessment of application form and project proposal approved by IDA. Company informed of decision and Innovation Voucher issued. Company and Knowledge Provider sign the Innovation Voucher “Declaration at Project Commencement” confirming that confidentiality and intellectual property (IP) issues have been discussed and agreed. Knowledge Provider retains the voucher until project completion.

+ Drawdown/payment of voucher
The company and Knowledge Provider agree the full work programme and costs prior to commencement of project.

The value of the voucher is €5,000 and in the event that costs are greater than €5,000, the company must pay the balance. The vouchers are exclusive of VAT so VAT must be paid separately by the company.
